-Brennan Barclay, Editor, March 13th, 2023, 11:50 PM

Hey guys! A member of the community is building a student help doc, and he would like your suggestions for what to add to it. He's built a form for you to submit links to websites, and he's asked that you don't submit links to games. These can be links to websites that have helped with homework, learning the material, things like that. Once again, this would be a great help for him, and it would be greatly appreciated if you gave your suggestions. Here's the link: <a href="https://forms.gle/LmEL8Sede3ivDy3K8">https://forms.gle/LmEL8Sede3ivDy3K8</a>

Yes, I bolded it, italicized it, and underlined it. Please don't ask. We will possibly do another one in the future, and we want to thank you all for applying, but please don't ask who got editor, or if you can get it.

-Ethan Brown, Head Editor, March 30th, 2023

#### Don't tell Ericsson;)

Starting here: (The Progressive Aerobic Cardiovascular Endurance Run (PACER) is a multistage shuttle run created by Leger and Lambert in 1982. The PACER is designed to measure aerobic capacity, which is characterized by endurance, performance, and fitness. The objective of the PACER is to run as long as possible while keeping a specified pace. Students run back and forth across a 20-meter space at a pace that gets faster each minute. A point is scored for each 20-meter distance covered. The test is easier in the beginning but progressively gets more difficult. In comparison to distance running, the PACER is a more effective, fun, and easy way to measure aerobic capacity that encourages participation from all youth and is relatively easy to score and administer.)

# BIG LETTERS ARE INSANELY AWESOME

I have a conspiracy theory so this is kinda dumb but this is how the next couple years are going to go: Joe biden is going to die soon (He will be the last American President) then 3 people are going to try and take over (I don't know who and they won't be in power that long) but then a alien invasion that is faked by holograms (basically called project blue beam) then they are going to try and fake NOPE (also a NEVER IN A MILLION YEARS when we see him first) and he is going to get into power and knock the 3 people off. but because the people are going to be scared for their lives and be desperate to be saved. Then they will fake the fake BEEP BAD killing or getting rid of the aliens and then a lot of other crazy stuff is going to happen like war.

This probably won't happen Yeah it wont never in a lifetime never in a year never in or days of living never in our days of sins yeah it won't happen "positive" I still stand by my font choices. Bruv Judas priest okay so like why are some things centered and some things not centered and the fonts are always changing it looks really bad in my opinion --michael Its just for fun lol -Kaden WHAT DO YOU MEAN? It looks normal to me 

Congrats for noticing this chaos down 'ere.
